Long term care events are a reality of life that more and more families will need to address in the upcoming years. With concerns about the future sustainability of this country's social programs, now is the time to plan for the consequences of a long term care event. Unfortunately, the average family does not have many choices. Brian Gordon, President of MAGA Ltd., will outline the various decisions most families will face and ways to help prepare for those tough decisions. You will also learn about the various strategies for LTC Funding.
