

UNDERSTANDING YOUR BRAIN

A WEBINAR PRESENTATION

Presented by **Chris Petrik, RN, BS, CDP, CADDCT**, Training Specialist
Elderwerks Educational Services

If you understand the brain and how it functions, you will have a better understanding on how injury, illness, and dementia can wreak havoc on brain cells. Chris will be discussing how the brain works; the different structures of the brain and what they control; where memory is stored and how it can be interrupted; and where judgment and social skills are originated.

WEDNESDAY, SEPTEMBER 2, 2020

10:00 AM to 11:00 AM ~ Webinar Presentation

Please join us for this important topic! Reservations are required.
